Education

Dharmsinh Desai University of Technology **Aug 2022 – May 2026**
Bachelor of Technology in Computer Engineering – CGPA: 8.01/10.0 Nadiad, Gujarat

Baroda Lions School **Jun 2021 – May 2022**
Higher Secondary Education (GSEB) – Percentage: 88% Alkapuri, Vadodara, Gujarat

Technical Skills

Programming Languages: Python, JavaScript, TypeScript, C++, C#, Java, SQL
Frameworks & Libraries: React.js, Next.js, Express.js, Node.js, Tailwind CSS, JWT, Socket.IO, ASP.NET MVC, FastAPI, Frappe Framework, ERPNext
Databases & Tools: MongoDB, MySQL, Entity Framework, Git, GitHub, Postman
Core CS Concepts: Data Structures & Algorithms, DBMS, OOP, Computer Networks, Auth & security

Projects

Partner Portal – Supplier Analytics Platform
Tech Stack: Next.js, TypeScript, Tailwind CSS, Python, Frappe, ERPNext, JWT

- **Problem:** Suppliers lacked a centralized platform to monitor product sales, inventory health, purchasing activity, and reporting across the retail network.
- **Solution:** Developed a secure supplier portal featuring interactive analytics dashboards, passwordless authentication, inventory alerts, CSV/Excel exports, scheduled email reports, and supplier-scoped data access with rate limiting and API security.

SymptoCure – ML-Powered Healthcare Platform **GitHub** | **Live Demo**
Tech Stack: React.js, Node.js, FastAPI, MongoDB, Scikit-learn, Socket.IO, JWT, Tailwind CSS

- **Problem:** Difficulty in early diagnosis and access to immediate medical consultations for common symptoms.
- **Solution:** Developed an ML-powered platform for disease prediction and real-time doctor consultations.

RuralFin – Financial Inclusion Platform **GitHub** | **Live Demo**
Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT, Tailwind CSS

- **Problem:** Financial exclusion in rural and low-income communities due to lack of accessible digital finance tools.
- **Solution:** Created a hybrid cash-digital wallet system with agent-assisted services and budgeting features.

Refactor Bank Integration (Company project) **GitHub**
Tech Stack: Python, Javascript, Frappe, ERPNext, Selenium

- **Problem:** HDFC portal changes broke the existing ERPNext online payment automation workflow.
- **Solution:** Rebuilt the automation workflow, introducing bulk payments, IMPS/RTGS configuration, and automated receipt management.
- **Project PR Links:** PR#18, PR#25, PR#26, PR#27, PR#32, PR#34.

Open Source Contributions

- **Frappe Framework:** 18 merged pull requests (feature development, bug fixes and refactors) – Link
- **ERPNext:** 4 merged pull requests (bug fixes and refactors) – Link

Experience

Software Engineering Intern (6 Months) & Full-Stack Developer **Resilient Tech**
Resilient Tech is a leading Frappe and ERPNext consulting company, actively contributing to the open-source ecosystem, maintaining the India Compliance application, and delivering ERP implementation, customization, and support solutions for businesses.

Hackathon Highlights

Odoo x Charusat – RuralFin (Financial Inclusion Platform) **Top 75 Finalist, Hackathon 2025**
Selected as one of the top 75 teams out of hundreds of participants for creating an innovative solution to bridge financial inclusion gaps in rural and underbanked communities.

- Developed a hybrid cash-digital finance system for rural areas, enabling seamless transactions and financial literacy.
- Collaborated with a cross-functional team to address real-world financial challenges for underserved communities.
